**Text of Senate Bill 1492,
Enacted in 2002 as California State Government Code Section 66535**

SECTION 1. Section 66535 is added to the Government Code, to read:

66535. (a) Not later than July 1, 2003, the commission shall establish performance measurement criteria on both a project and corridor level to evaluate all new transportation projects and programs (investments) that have not yet been identified as "Track One Investments" in the 2002 regional transportation plan. These performance measures shall apply to proposed projects, and the impact those projects will have on their respective corridors. The commission shall utilize these performance measurements to evaluate and prioritize alternative transportation investments in order to meet the goals and objectives for each corridor for inclusion in the 2004 regional transportation plan.

(b) The commission shall adopt goals and measurable objectives for planning corridors and subcorridors delineated by the commission. These goals and objectives shall be compatible and consistent with the requirements of the performance measurement criteria established by the commission pursuant to subdivision (a) for inclusion in the 2004 regional transportation plan.

(c) Any costs associated with this section incurred by the commission shall be paid solely from funds provided pursuant to Section 99233.2 of the Public Utilities Code. If there is insufficient funding from this source, the commission is not required to perform the functions described in this section.

SEC. 2. Pursuant to Section 17579 of the Government Code, the Legislature finds that there is no mandate contained in this act that will result in costs incurred by a local agency or school district for a new program or higher level of service which require reimbursement pursuant to Section 6 of Article XIII B of the California Constitution and Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.
